

SAFEGUARDING CHILDREN

**ANNUAL SUMMARY
2021**

Tēnā koe e hoa,

Safeguarding Children is a registered charity dedicated to the prevention of child abuse in Aotearoa New Zealand. Starting from our humble background in 2011, our charity has developed into a leading child protection training and consultancy provider due to the unparalleled commitment from our team, voluntary board and supporters. This dedication has rewarded us with an unrivalled reputation for delivering high-quality flexible services that meet the needs of the people and organisations we work with.

We constantly ask New Zealanders to rise to the challenge of preventing and responding to child abuse. However, this wasn't the only challenge our country faced during the past year as the impact of a global pandemic hit home. Safeguarding Children was prepared for this as the result of our decision several years ago to invest in digital technology as a way to meet the demand for our training and reach as many people as possible. This decision ensured we could pivot our services swiftly in response to the pandemic without losing focus on the best outcomes for children.

I am incredibly proud of the multi-talented and dedicated team at Safeguarding Children. It is a privilege for me to lead the people I have around me; it is both humbling and inspiring every day. Nothing gives me greater pleasure than seeing them grow in their individual roles and courageously contribute collectively to this important mahi.

Child abuse is preventable, not inevitable. Every one of us has a role to play in keeping children safe. Preventing abuse is the responsibility of everyone. Children rely on the adults around them to keep them safe. Our annual summary clearly demonstrates that nothing will stop us in our pursuit of reducing the rates of child abuse in Aotearoa New Zealand, not even a global pandemic!

ORGANISATION

Safeguarding Children is continually looking at ways of improving how it operates, is represented and the service it provides. This year has seen the expansion of its team to enable this continual improvement. It is also the result of increased demand for child protection education as more people and organisations become aware of its necessity.
