

SAFEGUARDING CHILDREN IN EMERGENCIES

ESSENTIAL TRAINING FOR EVERYONE INVOLVED IN EMERGENCY MANAGEMENT

This course will be valuable for all staff and volunteers of Civil Defence Emergency Management Groups or National Emergency Management Agency. Ensuring children are safeguarded from abuse and neglect during an emergency and that their unique needs are incorporated into civil defence emergency planning. Evidence shows that emergency management plans need to be more child-focused and address the specific risks to children.

This training will:

- Help you understand children's unique vulnerabilities and how to minimise harm
- Instill confidence to identify vulnerable children and families
- Increase ability to recognise indicators of abuse in both children and adults
- Provide guidance for steps to take when concerns are raised
- Give an understanding of the options available for helping a child including legislation which supports you to do this
- Help you develop a plan which includes the necessary safeguards to address the risks to children in an emergency setting

Book your group in now for this interactive online webinar, ensuring your plans are child-focused and that your teams are equipped with the knowledge and skills to keep children safe.
